OTHER PEOPLE'S BUSINESS.

There is scarcely anything more unfortunate for a man than the absence of loving women around his childhood and youth. Mark Ripon had never known such women, and I offer this fact as some palliation for his want of faith in them.

He was ignorant of his parentage; he had been found one summer morn-The trade once divided among ing on the steps of the Foundation four or five stores, new con-centrated in two stores, mak-it was on the featival of St. Mark, he ing a GREAT SAVING in rent, had received the name of the saint and the name of his native city, and

He was even venturing to make Mrs. George Downes that exception said to be contingent on every rule, when suddenly all his suspicions were forced into active life and prominence. One day-a very wet one-a close carriage drove up to George's house, and Mrs. George, heavily cloaked and

veiled was driven away in it. 'Very well, ma'am,' said Mark, suspiciously, to himself, 'we shall see whather you confess to having been out to day.' .

So he went over to George's, played a rubber or two with his favorite, and tried every way to induce a confession as to the drive in the rain : but the young wife would make no allusion to it. Whenever the laboring men are out of employment they begin to hate the rich. They feel that the dwellers in palaces, the riders in carriages, the wearers of broadcloth, silk and yelvet have it some way been robbing them. As a matter of fact the palace builders are the friends of labor. The best form of charity is extravagance. When you give a man money, when you toes him a dollar, although you get nothing, the man loses his manhood. To help others to help themselves is the only real charity. There is no use boosting a man who is not climbing. Whenever I see a splendid house s palace—a magnificent block, I think children clothed, of the firesides made happy.
